

## **MAINTAINING PROCESSING PLANTS WITH A FOCUS ON RELIABILITY, MAINTAINABILITY & SUSTAINABILITY**

At the core of the Minopex reputation for excellence, lies highly qualified and expertly trained maintenance teams, Ensera and Ensermo, focused on asset management and plant reliability.

As a stand-alone maintenance service provider, these fully owned subsidiaries, have a holistic asset management approach, key to delivering maintenance services and optimising plant utilisation, timeously.

### **MAINTENANCE CONTRACTS WITH MAXIMUM BENEFITS**

You can rest assured that when handing over certain aspects of the processing function to Minopex, in operating and maintaining your facility, that continuous production is guaranteed, resulting in a reduction of operational downtime.

Providing comprehensive mechanical, structural, and electrical services, our teams are industry leaders in maintenance and optimisation for all fixed and mobile plant and equipment.

Our on-site capabilities are supported by off-site centres providing mechanical, electrical and manufacturing services.

Minopex has extensive experience in repairs and upgrades for various industry equipment including:

- processing plants
- draglines
- longwall and development equipment
- bulk materials handling equipment
- heavy mobile equipment (HME)

*Continued overleaf*

**KEY MAINTENANCE SERVICES**
