WHAT MAKES US DIFFERENT

46

Sites operated & maintained throughout our history

56

Million tons processed per annum

16

Process facilities currently managed across EMEA over the full value chain

+2000

Employees

FOOTPRINT

Minopex is known as a leading outsourced mineral processing plant operator, having earned an impressive track record across 14 countries within Africa and the Middle East. The organisation maximises value for clients by navigating skill, culture, language and logistical barriers in remote locations to effectively manage and optimize assets on behalf of clients.

COMMODITIES

Minopex provides fit for purpose operations and maintenance practices with enough depth to cater for various commodities. The organisation's extensive experience across base metals, precious metals & stones and bulk commodities brings new projects into production in the shortest possible time with an experienced workforce and established policies and procedures. Thus resulting in a shortened ramp up period between commissioning and full production.

**BASE
METALS**
